

MONO-AMMONIUM PHOSPHATE

MAP 11-52-00 - BINARY FERTILIZER, COMPLEX GRANULE

Use

MAP is a concentrated phosphate fertilizer. It can be used directly for soil fertilization or as raw material for blends.

Packaging

- In bulk
- 50 kg bags

Characteristics

Physical characteristics

pH: 5
Loose density: 0.92
Packed Density: 1.02
Physical State: Granule
Appearance: Light brown / black

Chemical characteristics

Nitrogen: 11 % (N)
Phosphorus: 52 % (P₂O₅)
